**WEKIVA PARKWAY**  
Completing Central Florida's Beltway

**FDOT** **CENTRAL FLORIDA EXPRESSWAY AUTHORITY**

**WELCOME**

On behalf of the Florida Department of Transportation and the Central Florida Expressway Authority (CFX), formerly the Orlando-Orange County Expressway Authority, thank you for your interest in the Wekiva Parkway design and construction projects. The Wekiva Parkway (State Road 429) is a cooperative effort between these agencies and the Florida's Turnpike Enterprise.

The Wekiva Parkway (SR 429) would connect to SR 417, completing the beltway around Central Florida, while helping to protect the natural resources surrounding the Wekiva River. This estimated \$1.6 billion project includes \$600 million of non-toll road improvements including:

- Widening seven (7) miles of SR 46 in Lake and Seminole Counties
- Realigning the US 441/SR 46 interchange in Mount Dora
- Shifting the CR 46A connection to SR 46 so wildlife can move more safely between habitats
- Providing non-tolled, one-lane service roads parallel to the parkway in part of east Lake and Seminole Counties
- Building a 10-mile, multi-use trail along portions of the parkway in east Lake and Seminole counties
