

A Regional Transportation Solution

Community Open House Photo Gallery

Sections 5 & 6 Design Update
April 7, 2015

Lake County _ More than 156 people attended the second Wekiva Parkway Sections 5 and 6 Public Workshop on April 7, 2015, at Camp Challenge in Sorrento. Five people submitted comment forms at the Florida Department of Transportation meeting, meant to update the community on the Section 5, 100 percent and the Section 6, 60 percent design plans.

Among the officials that attended were Lake County Engineer Fred Schneider; Hugh Harling of the East Central Florida Regional Planning Council; Robert Brooks, Wekiwa Springs State Park Manager; Joe Bishop, Seminole State Forest Supervisor with the Florida Forestry Service; and, David Martin of Seminole County. Former Lake County Commissioner Catherine Hanson and members of the Friends of the Wekiva River also were in attendance.

The mood was overwhelmingly positive. Many attendees were pleased to know that they will have the option of using non-tolled, parallel service roads for local trips in east Lake and Seminole Counties.

This was the second design public workshop held for these sections. Design is scheduled to finish this year. Construction is scheduled to take place from 2017-2020.

- Navigation:** HOME, FDOT SECTIONS, CFX SECTIONS, SECTIONS BY COUNTY, PROJECT HISTORY, FAQ, CONTACT US.
- WELCOME:** On behalf of the Florida Department of Transportation and the Central Florida Expressway Authority (CFE), formerly the Orlando-Orange County Expressway Authority, thank you for your interest in the Wekiva Parkway design and construction project. The Wekiva Parkway (State Road 429) is a cooperative effort between these agencies and the Florida's Turfgrass Enterprise.
- Project Description:** The Wekiva Parkway (SR 429) would connect to SR 417, completing the beltway around northeast metropolitan Orlando. This estimated \$1.6 billion project includes \$200 million of non-toll road improvements including:
 - Widening seven (7) miles of SR 49 in Lake and Seminole Counties
 - Rebuilding the US 401/SR 49 interchange in Mount Dora
 - Splitting the CR 468 connection to SR 49 so wildlife can move more safely between habitats
- Project Schedule:** Click here to view the overall Project Schedule. Please understand schedules are subject to change due to a host of variables.
- WEKIVA PARKWAY PROJECT SECTION MAP:** Click on a Section Number for Project Details.
- Map:** A satellite-style map showing the project route through the Orlando area, with various sections highlighted in green and purple. A legend indicates 'FOOTPRINT SECTION' and 'EXISTING SECTION'.
- Text below map:** The 25-mile toll-free expressway will provide travel alternatives and relieve US 401, SR 49 and other area roads of traffic congestion resulting from growth and travel between Orange, Lake and Seminole Counties. Authorized in 2004 by the Wekiva Parkway and Protection Act (Chapter 306, Part II, F.S.), this expressway has been heralded as a shining example for transportation planning through an environmentally sensitive area. Development of the Wekiva Parkway has included setting aside more than 2,000 acres of land for conservation. The parkway also will include numerous wildlife bridges, and will be largely elevated to reduce accidents between vehicles and wildlife.
- Latest News:** A list of recent events including public meetings and board updates from June 2014 to April 2014.
