

A Regional Transportation Solution

Community Open House Photo Gallery

**Pre-Construction 100% Design
Section 2 (429-204, -205 & -206)
September 24, 2015**

Some 158 people attended the Central Florida Expressway Authority's pre-construction Community Open House on Sept. 24, 2015 for the agency's second section of the Wekiva Parkway (State Road 429). Sections 2A, 2B and 2C (429-204, -205 & -206) are to be built north of Kelly Park Road between Round Lake Road, Mount Plymouth Road (County Road 435) and State Road 46.

Those attending the meeting at the Northwest Orange County Improvement Association (NOCIA) Building on Ponkan Road were able to view the latest project maps and aesthetics exhibits, and a narrated PowerPoint presentation. CFX and consultant design staff were on hand to answer questions on topics that included parkway elevations, access points, proximity and impacts to property owners, schedules and property acquisition.

Among those attending were: City of Apopka Mayor Joe Kilsheimer and Commissioner Diane Velasquez, Lake County Engineer Fred Schneider, City of Apopka Community Development Director Jay Davoll and Senior Designer Vladimir Simonovski. Media coverage leading up to the meeting included The Orlando Sentinel, WFTV Ch. 9, WMFE and the Apopka Chief.

The screenshot shows the official website for Wekiva Parkway. At the top, the logo reads "WEKIVA PARKWAY" with the tagline "Completing Central Florida's Beltway" and the route number "429". Navigation tabs include "HOME", "FDOT SECTIONS", "CFX SECTIONS", "SECTIONS BY COUNTY", "PROJECT HISTORY", "FAQ", and "CONTACT US".

The main content area features a "WELCOME" section with text from the Florida Department of Transportation and Central Florida Expressway Authority. It describes the project as a cooperative effort to complete the beltway around northwestern Orlando, including \$200 million in non-toll road improvements. Key features listed include widening seven miles of SR 46, rebuilding the US 401/SR 46 interchange, and shifting the CR 640 connection to SR 46 for wildlife safety.

A "WEEKIVA PARKWAY PROJECT SECTION MAP" is displayed, showing the project route through Orange, Lake, and Seminole counties. A callout box on the map highlights "FOURTH SECTION - Williams Bridge Road". Below the map is a link to view a larger map.

The bottom section of the page includes "HELPFUL LINKS" to the Central Florida Expressway Authority, Florida Department of Transportation, Florida's 511, SunRail, and I-75 Project. It also features "FOLLOW US" social media icons for Facebook and Twitter. A footer contains copyright information (© 2012) and a disclaimer: "Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status."

On the right side, there is a "LATEST NEWS" sidebar with a list of recent events from April to June 2014, including public meetings and commission updates. Below this are sections for "PROJECT DOCUMENTS", "PRESENTATIONS", and "PRESS RELEASES". A "CONTACT US" section at the bottom right lists Mary Brooks as the Public Information Officer, with an email address and phone number, and includes a small photo of a natural area.
