Mount Dora \_ More than 111 people attended the Florida Department of Transportation's public meeting open house on June 24, 2014 to view the latest design plans for Wekiva Parkway Sections 3A and 3B. This was the second public workshop during design for the non-tolled sections stretching from US 441 and SR 46 to east of Round Lake Road.

Among the notables attending were Mount Dora City Manager Mike Quinn and Councilman Nick Girone. The meeting at the Mount Dora Community Center also drew extensive media coverage.

The two project sections are working towards 90 percent design in late summer. Construction of both sections is scheduled from 2017-2019.
