WEKIVA PARKWAY
Completing Central Florida's Parkway

WELCOME
On behalf of the Florida Department of Transportation and the Central Florida Expressway Authority (CFE), formerly the Orlando-Orange County Expressway Authority, thank you for your interest in the Wekiva Parkway design and construction projects. The Wekiva Parkway (State Road 429) is a cooperative effort between these agencies and the Florida's Turnpike Enterprise.

The Wekiva Parkway (SR 429) would connect to SR 417, completing the beltway around northeast metropolitan Orlando. This estimated \$1.6 billion project includes \$200 million of non-toll road improvements including:

- Widening seven (7) miles of SR 49 in Lake and Seminole Counties
- Rebuilding the US 441/SR 49 interchange in Mount Dora
- Shifting the CR 443 connection to SR 49 so wildlife can move more safely between habitats.

The 30-mile toll-free expressway will provide travel alternatives and relieve US 441, SR 49 and other area roads of traffic congestion resulting from growth and travel between Orange, Lake and Seminole Counties.

Authorized in 2004 by the Wekiva Parkway and Protection Act (Chapter 268, Part II, F.S.), this expressway has been heralded as a shining example for transportation planning through an environmentally sensitive area. Development of the Wekiva Parkway has included setting aside more than 2,400 acres of land for conservation. The parkway also will include numerous wildlife bridges, and will be largely elevated to reduce accidents between vehicles and wildlife.
